

PAINTING I 0104370

Grades 9-12, Credit .5

Prerequisite: Drawing I & II

An introduction to the fundamentals of color theory and painting best practices. Curriculum developed from current National and Florida standards for art education. Further application of concepts acquired in Drawing class combine with the science of color theory to allow the student to gain a working knowledge of studio practice. A variety of mediums and techniques along with live and video demonstration enhance student understanding and ability.
