## FINANCIAL ALGEBRA 1200387Grade 10-12, Credit 1.0Prerequisite: C or better in Algebra II, OR B or better in<br/>Geometry, a 3 or higher on FSA-ELA exam, also with a teacher<br/>recommendation.

The financial literacy focus of this course provides a real-life framework to apply upper-level mathematics standards. In our consumer-based society, a mathematics course that addresses the results of financial decisions will result in more fiscally responsible citizens. This course will give students the opportunity to apply mathematics found in financial topics such as personal investments, retirement planning, credit card interest, taxes, and savings. Please note that the financial literacy standards in this course are repeated in the required Economics course for graduation with a standard high school diploma. \*The NCAA does not recognize this course as a math credit. The use of a graphing calculator (TI-83/84) is integrated throughout this course.
